

Safety Data Sheet

AdBlue®

Safety Data Sheet according to WHS and the ADG requirements

1. IDENTIFICATION

Product Identifier

Product Name	AdBlue ì
Synonyms	Aqueous Urea Solution, DEF (diesel exhaust fluid)
Other Means of Identification	Not available

Recommended Use & Restrictions of Use

Used for NOx reduction in exhaust gases from vehicles with diesel engines. Urea & water additive to be used for injection into diesel SCR exhaust systems. Use as directed by engine manufacturer.

Supplier's Details

Company	Park Pty Ltd
Address	Lot 1, Creole Road, Albion Park Rail, NSW, 2527
Telephone	02 4256 6680
Email	info@parkfuels.com.au
Website	www.parkfuels.com.au

Emergency Telephone Number

Association	Australian Poisons Information Centre
Telephone Number	13 11 26
Emergency Services	000

2. HAZARDS IDENTIFICATION

Non-Hazardous Chemical. Non-Dangerous Goods.

According to the WHS Regulations and the ADG Code

Classification of the Substance/Mixture

Not Applicable

Label Elements

GHS Label Elements	Not Applicable
Hazard Statement/s	Not Applicable

Precautionary Statement

Keep out of reach of children. Avoid contact with skin and eyes and avoid breathing dust/vapour or spray mist. Wear overalls, impervious gloves and chemical goggles. Use only in well ventilated areas. Store away from other chemicals. Keep containers closed when not in use.

Harmful if swallowed. Give plenty of water to drink and seek medical advice. If in eye, flush gently with running water for 15 minutes. If inhaled, remove from exposure area. If irritation persists, seek medical attention. If skin or hair contact occurs, remove contaminated clothing and flush affected areas with running water. If irritation persists, seek medical attention.

Refer to Waste Management Authority. Dispose of material through a licensed waste contractor.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substances Mixture of demineralised water & urea.

Mixtures

CAS No.	% (weight)	Name
57-13-6	30-40	Urea
7732-18-5	>60	Demineralized water

4. FIRST AID MEASURES

General Information Not expected to be a health hazard when used under normal conditions

Eye Contact

- Flush eye with copious quantities of water.
- If persistent irritation occurs, obtain medical attention.

Skin Contact

- Remove contaminated clothing.
- Flush exposed area with water and follow by washing with soap if available.

Inhalation

- No treatment necessary under normal conditions of use.
- If symptoms persist, obtain medical advice.

Ingestion

- No treatment necessary unless large quantities are swallowed.
- If symptoms persist, obtain medical advice.

Indication of immediate medical attention/special treatment needed

- Treat symptomatically

5. FIRE FIGHTING MEASURES

Extinguishing Media The product contains a substantial proportion of water, therefore there are no restriction on the type of extinguisher that may be used. Choice of extinguisher media should take into account surrounding areas.

Though the material is non-combustive, evaporation of water from the mixture, cause by the heat of nearby fire, may produce floating layers of combustible substances. In such an event consider;

- Foam
- Dry chemical powder
- Carbon dioxide

Special hazards arising from the chemical

- When heated, releases ammonia.
- When heated to decomposition, releases toxic fumes of nitrogen oxides, ammonia, cyanuric acid.

Advice for Fire Fighters

- Clear fire area of non-emergency personal.
- Alert fire brigade: define location, nature of hazard.
- Wear personal safety equipment: breathing apparatus, gloves.
- Use firefighting procedures suitable for the surrounding environment.
- **Do not** approach containers suspected to be hot.
- Cool fire exposed containers with water spray from a protected locations.
- If safe to do so, remove containers from path of fire.

8.

(continued)

- remove a hazard or place a barrier between the worker & the hazard. The basic types of engineering controls are,
- process controls: change the way a job activity or process is done to reduce the risk.
- enclosure and/or isolation of emission source: keep a selected hazard physically away from the worker and ventilation that appropriately removes or adds air to the work environment.

- Safety glasses with side shield

See Hands/feet protection below

- Protective gloves e.g. PVC safety gloves
- Safety footwear or safety gum boots e.g. rubber boots
- Overalls
- PVC apron

Barrier cream, skin cleansing cream, eye wash unit.
Not available.

Particulate. (AS/NZS 1716 & 1715, EN 143:000 & 149:001, ASNI Z88 or national equivalent)

Clear colourless slightly alkaline liquid with odour of ammonia.	1.09 g/cm ³
Mixes with water.	1.09@20C
liquid	> 100 g/l
	Not determined
Slight ammonia	Not determined
Not determined	100
Not determined	Not determined
-11.5	Not determined
100	Not determined
Not applicable	Not Available
Not determined	Non-determined

9. PHYSICAL and CHEMICAL PROPERTIES (continued)

Flammability	Non-Flammable	Oxidising properties	Not Available
Upper Explosive Limit	Not Available	Surface Tension	Not Available
Lower Explosive Limit	Not Available	Volatile Component (% vol)	Not Available
Vapour Pressure (kPa)	6.4 @ 40C	Gas Group	Not Available
Solubility in Water	Miscible	pH as a Solution (1%)	9.8-10 (10%)
Vapour Density (Air = 1)	Not Available	VOC (g/L)	Not Available

10. STABILITY AND REACTIVITY

Reactivity	See 7. Handling and Storage
Chemical stability	<ul style="list-style-type: none"> • Product is considered stable. • Hazardous polymerization will not occur.
Possibility of hazardous reactions	See 7. Handling and Storage
Conditions to avoid	See 7. Handling and Storage
Incompatible materials	See 7. Handling and Storage
Hazardous decomposition materials	See 7. Handling and Storage

11. TOXICOLOGICAL INFORMATION

Information of toxicological effects

Inhalation There is some evidence to suggest that the material can cause respiratory irritation in some persons. The body's response to such irritation can cause further lung damage.

Ingestion Urea may cause irritation to the digestive tract, nausea, vomiting, diarrhea, salt depletion, headache, confusion.

Skin contact The material may cause skin irritation after prolonged or repeated exposure and may produce on contact skin redness, swelling, the production of vesicles, scaling and thickening of the skin.

Eye contact The material may be irritating to the eye, with prolonged contact causing inflammation. Repeated or prolonged exposure to irritants may produce conjunctivitis.

Chronic Substance accumulation in the human body may occur and may cause some concern following repeated or long-term occupational exposure.

**AdBlue® / AUS 32
Aqueous Urea Solution**

TOXICITY

No adverse health effect are expected if the product is handled in accordance with this Safety Data Sheet.

IRRITATION

Eye: Mild irritation

Skin contact: Mild irritation

Inhalation: May cause respiratory irritation

Ingestion: May cause nausea, vomiting, diarrhea and abdominal pain.

Toxicity

Ingredient	Toxicity	Irritation
AdBlue®	Not available	Not available
Urea	Oral (rat) LD50: 8471 mg/kg [2]	Skin (human): 22mg/3 d (I)- mild
Water	Oral (rat) LD50: >90000 mg/kg [2]	Not available

¹ Value obtained from Europe ECHA Registered Substances – Acute toxicity 2. * Value obtained from manufacturer's SDS. Unless otherwise specified data extracted from RTECS – Register of Toxic Effect of Chemical Substances.

12 ECOLOGICAL INFORMATION

Toxicity

Ingredient	Endpoint	Test Duration (hr)	Species	Value	Source
urea	LC50	96	Fish	5mg/L	4
urea	EC50	48	Crustacea	3910mg/L	4
urea	EC50	96	Algae or other aquatic plants	42184.758mg/L	3
urea	BCF	24	Algae or other aquatic plants	0.05mg/L	4
urea	EC50	384	Crustacea	894.861mg/L	3
urea	NOEC	96	Crustacea	1000mg/L	4

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Legislation addressing waste disposal requirement may differ by country, state or territory. Each user must refer to laws operating in their area.

This product may be recycled if unused, or if it has not be contaminated so as the make it unsuitable for its intended use.

Product & packaging disposal

- Do not allow wash water from cleaning or process equipment to enter storm-water drains.
- It may be necessary to collect all wash water for treatment before disposal.
- Disposal to sewer may be subject to local laws & regulations and these should be considered first.
- Recycle wherever possible.
- Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.
- Dispose of by: burial in a specifically licensed landfill (chemical and/or pharmaceutical waste), or incineration in licensed apparatus (after admixture with suitable combustible material).
- decontaminate empty containers.

14. TRANSPORT INFORMATION

Labels Required

Marine Pollutant NO
HAZCHEM Not Applicable

Land transport (ADG): **NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS**
Air transport (ICAO-IATA / DGR): **NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS**
Sea transport (IMDG-Code / GGVSee): **NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS**

15. REGULATORY INFORMATION

Safety, health and environmental regulations / legislation specific for the substance or mixture

Non-Hazardous Chemical. Non-Dangerous Goods.

According to the WHS Regulations and the ADG Code

UREA(57-13-6) IS FOUND ON THE FOLLOWING REGULATORY LISTS
Australia Inventory of Chemical Substances (AICS)

WATER(7732-18-5) IS FOUND ON THE FOLLOWING REGULATORY LISTS
Australia Inventory of Chemical Substances (AICS)

16. OTHER INFORMATION

This safety data sheet has been prepared by AUSblue Pty Ltd.

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since AUSblue Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their AUSblue representative or AUSblue Pty Ltd at the contact details on page 1.

AUSblue Pty Ltd's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
